Quotation and Quasiquotation

A journey through three examples

Charlotte Wickham
cwickham@gmail.com
[@cwickham](#)

Materials @ <https://github.com/cwickham/quotation>

1. Using a dplyr function interactively

```
arrange(starwars, desc(mass))
```

Materials @ <https://github.com/cwickham/quotation>

2. Using a dplyr function with a saved variable

```
var <- expr(mass)  
arrange(starwars, desc(!!var))
```

Materials @ <https://github.com/cwickham/quotation>

3. Using a dplyr function inside a function

```
arrange_desc <- function(.data, var){  
  var <- enexpr(var)  
  arrange(.data, desc(!!var))  
}  
arrange_desc(starwars, mass)
```

three-examples-annotated.Rmd

My version has blanks,
so I can write the code as I explain.
